## Safer Internet Day 2026

Hawley Primary proudly took part in Safer Internet Day, a national event promoting online safety and digital responsibility. Throughout the day, children across the school engaged in lessons linked to this year's theme: Artificial Intelligence (AI).

Pupils explored how to stay safe online, discussed the positives and potential risks of using AI, and learned about the importance of balancing screen time with other activities. Through discussions, activities, and age-appropriate resources, children developed a better understanding of how technology can support their learning while also recognising the need to use it responsibly and thoughtfully.
